

## Internal Website Access & Posting Support

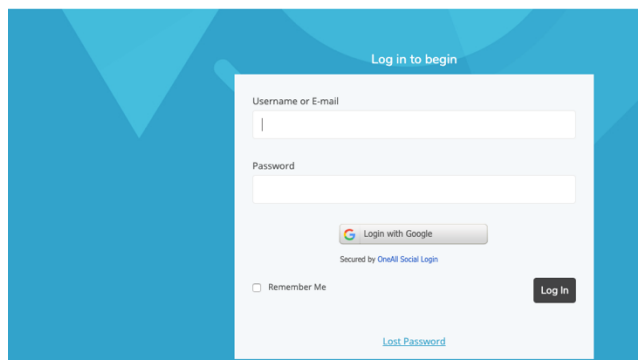

Go to [stemecosystems.org](http://stemecosystems.org) and find Community of Practice on the Menu.

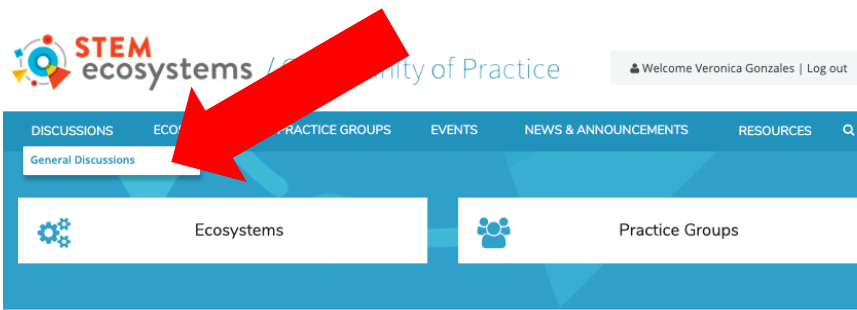

Click "Visit the Community of Practice"

Log-in with the email you use to correspond with the SLECoP. If this is your first time logging in, click "Lost Password" and reset the password with prompts in your email. You will likely need to close and re-open the window.

To post on the General Discussion Board click “General Discussions” under the “Discussion” Menu Option.

Scroll down and write your message, complete with topic title, and press submit (ONCE).

You will likely get an “error” message once you submitted, unfortunately, this is normal.

Check your email (including spam folders) to see if your message went through.
